

A NEW DAWN APPROACHES FOR THOSE WILLING TO EMBRACE IT. Wed/27/May/2020.

The door has been opened to engage a new way to educate our young ones and requires the policy makers to recognize this potential and put the necessary protocols in place, to deliver safer, all-inclusive, focused education for at least one year, or until we can have our schools properly prepared to create competent, well-educated students.

To do that of course, we have to manage what Teachers have to face in the variety of students home experiences they bring to the Classroom and getting the necessary psychological help in the Classroom from qualified persons together with, gathering personal development in Positive Parenting to better manage their own responses to student challenges.

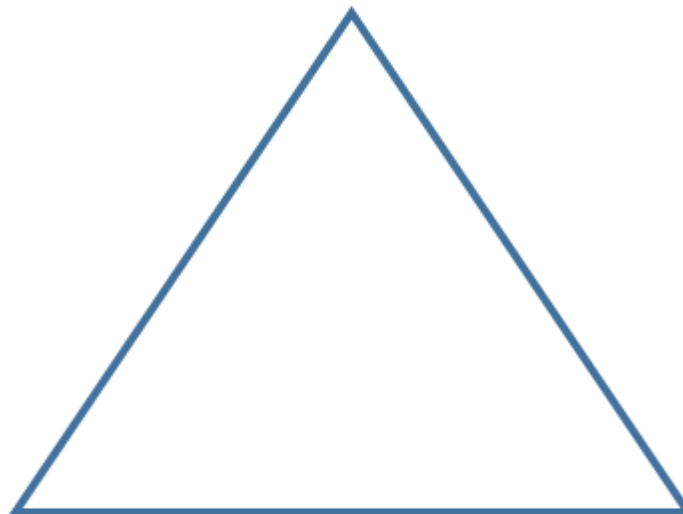

400 plus School Buildings is a great investment in our Nation Building Sustainable Quest, but thousands of Drop Outs and poor results dim our past history of success.

COVID 19 has disclosed that something better has to be done, in my humble view. Any Recovery Map can involve the ***SOCIOPOLITICAL RECOVERY TRIANGLE***, which pays intense attention to the Socioeconomic, Sociopsychological and Sociolegal impacting factors. ***Link below for Details:-***
